

# MARTIAN RACE

A GAME BY GIANSIMONE MIGONI

 Competitive game	 15 minutes	 Set Up of 30 seconds	 10-15 euros
 2-4 players	 Race - Pattern Building	 Completely language independent	 1,1-1,2 BGG Complexity
 Family game	 Galaxy Trucker Pick-a-Dog	 Interaction absent	 Implementation of Pattern B. mechanics
 8-99 years	 Filler game	 Alea absent	 55 cards

Write the history of the conquest of Mars! Play as one of the four superpowers between Russians, Americans, China and Europe! You must try to conquer Mission cards by completing as first the way to Mars. Be careful, though, because along the way you'll have to take valuable photos of various space objects (UFOs, moon, planets, black holes).

The winner is the player who has completed correctly the most missions at the end of the game.

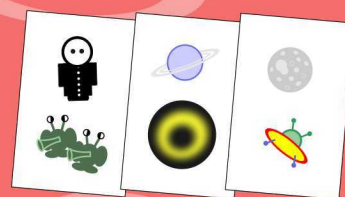

1. Players place cards to build their routes

2. Take pictures of space objects along the route!

3. Arrive to Mars first and obtain the Mission card

4. Mission cards determine which space objects have to be present in the routes
