MEEPLES GO ON HOLYDAY!

AN INTERESTING IMPLEMENTATION OF MEEPLE ROLLING MECHANISM

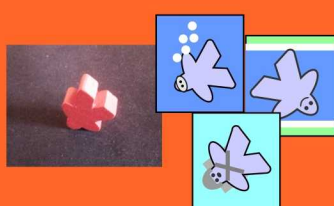

Summer is starting! After a whole year of hard work and drudgeries, our beloved meeples crowd your tourist meeples agency to find the right holiday for them. You are the owner of a meeples tourist agency and you have to receive the arriving meeples-customers. In your turn you roll...the meeples! Depending on how the meeples stand on the table you will have to place them on your own cards that represent different tourist packages. Every tourist package gives money or Likes. Likes allow you to make improvements in the Meepleadvisor track. Aim of the game is to reach as first the «5,0» space in the Meepleadvisor track. Take meeples around the world and let them enjoy a well-deserved vacation!
